Experience

The Global Health Governance Journal, South Orange, N.J. 2012 - Current

- Serving as assistant editor and grant researcher. Tasked with the review and editing of documents pertaining to issues of global health and the implications for governance and security at national as well as international levels. Topics addressed pertain to political, economic, social, military and strategic aspects of global health issues. These included biological weapons and bioterrorism; new and re-emerging diseases; implications on peace and stability, as well as national and international responses to global health challenges.

International Justice Project, Bishop Auckland, U.K. 2011-Current

- Project assistant under I.J.P. Director Anne James. Tasked with drafting and editing country specific reports pertaining to human rights and other related legal issues. Provided discreet technical and policy assistance pertaining to international law and human rights standards to individuals and organizations. This included case-based assistance to relevant attorneys and information to the legal profession on topics of general interest, monitoring, and analysis for interested parties. Gained a thorough knowledge of the selected region and specific target nations. Produced recommendations for action as well as key legal aspects of domestic practice in the context of international law, set in the broader framework of the political landscape and relationship with the international community.

Regional Congressional Office, Rochester, N.Y. 2010 - 2010

- Intern to U.S. Representative Daniel Maffei, 25th district of N.Y. Served as point-person between constituents and the deputy regional director. Aided with campaign run and later events in set of before arrival of Congressman Maffei. Functioned as point to constituent concerns, drafted correspondences on behalf of the congressman to constituents and other government agencies.

Syracuse University, Syracuse, N.Y. 2009 - 2009

- Research assistant to Dr. Michael Nilan. Provided research thesis on the role of technology pertaining to the current and future impact technology has on social connectivity regarding politics, society, and economics.

Syracuse University, Syracuse, N.Y. 2008 - 2009

- Acted as team leader for study pertaining to identification of insider threat conducted by scholar Dr. Jeffery Stanton. The study stemmed from the case of F.B.I mole Robert Hanssen. Managed efforts of the team leading to development of a virtual test platform and strategy to analyze and identify insider security threats. Completed proposal and strategy to predict incidences of future insider threats.

University of Limerick, Limerick, Ireland. 2009 - 2009

- Team leader for Masters of Science engineering program. Led and directed team in development of thesis and presentation on theoretical computer platform to replace current computer technology.

Syracuse University, Syracuse, N.Y. 2008 - 2008

- Research assistant to Dr. Stuart Thorson. Completed a research paper on the use of soft power as a policy instrument. Contributed to presentation and publication "U.S.-North Korea Trust Building Through Academic Science Cooperation" at Journal of the World Universities Forum in Davos, Switzerland. Study resulted in establishing a digital library at Kim Chaek University of Technology in Pyongyang North Korea with the aid of The Korea Society and Syracuse University.
